

The Montessori School of Washington

February Newsletter

2014

It's been a month since we returned from our break and we have had a few snow days and closings but the children are on track with their classroom work.

We are at the point of the Montessori curriculum where the children are being introduced to more advanced math and language lessons. For language the children are learning how to combine the sounds of each letter to make words.

In mathematics, the children will be given the rule of "addition" through the "banks and beads" presentation.

In practical life, lessons will be given on food preparation: peeling & cutting an egg, apple cutting, squeezing orange juice, clothes washing, flower cutting and arranging.

Tuition and After-care

Parents are reminded that their after-care invoice should be paid in full by the fifth of every month, any later a late fee of \$25 will be applied. If invoices aren't settled by the fifteenth of each month your after-care option would be cancelled until payment is made.

OTHER TOPICS

Please be mindful that after-care pick-up is 5:00pm sharp!

It's that time of the year when germs are easily shared, here at MSOW we are doing our best to keep things disinfected but we need our parent's cooperation. If your child has a really bad cough, yellow thick mucus or any other illness please keep them home, if we notice that a child comes in with any of these symptoms we will send them home!

Upcoming Events

February 17	No School

Extracurricular

Music Instruments of the orchestra: woodwind families, brass & percussion.
Martial Arts Large & small motor skill activities, obstacle courses.
Yoga Animal poses

These children really enjoy each other, we love seeing how close they have become!

WE WELCOME YOU!

Join MSOW in welcoming the new children in our classroom!

Charlotte Newman & Sophie Rutherford!

Montessori Whispers:

"To assist a child we must provide him with an environment which will enable him to develop freely"- Dr. Maria Montessori.
